2009 - 2015

PROJECTS

Pokedex —

A simple react app using the poke API.

Github - <https://github.com/shibli21/pokedex>

Live demo - <https://pokedex.shibli.vercel.app/>

Shop app —

A cross-platform app built using flutter

Github - <https://github.com/shibli21/pokedex>

Portfolio site —

The next js site where I used MDX

Github - <https://github.com/shibli21/pokedex>

Live demo - <https://syedshibli21.vercel.app/>

Simple blog site —

The frontend is done by React(Next Js) and the backend is done by using Node Js (Typescript)

Github - <https://github.com/shibli21/the-blog>

Live demo - <https://the-blog-gamma.vercel.app/>

Library Management System —

A library management system built on Next js - frontend and GraphQL-backend.

Github

Frontend- <https://github.com/shibli21/lms-client>

Backend - <https://github.com/shibli21/lms-server>

Department Management System —

A university management system built on Next js - frontend and GraphQL-backend. Currently, I am working with a group on this project for my Software engineering project at my university

Github - <https://github.com/shibli21/DMS>
